TO: Mayor and City Council

FROM: Director of Public Works

SUBJECT: Pavement Reconstruction FY11 – Grove Way, Havana Avenue, Lilac Avenue, Portsmouth Avenue, Rockford Road, and Sorenson Road: Approval of Plans and Specifications and Call for Bids

RECOMMENDATION

That Council adopts the attached resolution approving the plans and specifications for the Pavement Reconstruction FY11 project, and calling for bids to be received on June 29, 2010.

BACKGROUND

This Measure B funded project is a continuation of the City's ongoing program to repair failed pavement sections with full-depth asphalt concrete pavement reconstruction for Grove Way, Havana Avenue, Lilac Avenue, Portsmouth Avenue, Rockford Road, and Sorenson Road. Attachment II identifies the streets selected for reconstruction this fiscal year. The proposed improvements will improve riding surface and driving conditions, as well as improve the street's appearance.

DISCUSSION

The maintenance program involves reconstruction or major repair of severely deteriorated streets to bring them to acceptable pavement standards. The selection of streets for reconstruction was based on staff's analysis of the pavement condition indices identified through the City's computerized Pavement Management Program, along with specific field examination and functional classification of each street. The above mentioned streets were selected for pavement reconstruction because the existing pavement is so severely deteriorated that the typical dig-out spot repair and pavement overlay would not be cost effective. The work consists of removing the existing pavement and underlying layers, and replacing them with a full-depth asphalt concrete roadway section. These streets will also include the construction of new curb and gutter.

In order to satisfy the requirements of the Americans with Disabilities Act (ADA), accessible ramps will be installed at the curb returns of street intersections located within the limits of the project. The

project is categorically exempt under Section 15301 (c) of the California Environmental Quality Act Guidelines for the operation, repair, maintenance, or minor alteration of existing facilities.

FISCAL IMPACT

The estimated project costs are as follows:

Contract Construction	\$620,000
Design and Administration	95,000
Construction Administration	85,000
Total	<u>\$800,000</u>

The FY 2010 Capital Improvement Program includes \$800,000 in the Measure B Tax (Local Transportation) Fund.

PUBLIC CONTACT

After the construction contract is awarded, a preliminary notice explaining the reconstruction project will be distributed to all residents and businesses along the affected streets. After the construction work has been scheduled, signs on barricades will be posted 72 hours prior to commencement of work indicating the date and time of work for each street.

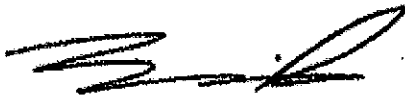

SCHEDULE

Open Bids	June 29, 2010
Award Contract	July 20, 2010
Begin Work	August 16, 2010
Complete Work	November 15, 2010
